Profile Summary

MCA graduate at Vignan University seeking a Trainee Software Engineer role. Proficient in Python and OOP concepts and Hands-on experience in frontend development, having designed and built a Supportive Hub web application using HTML, CSS, and JavaScript to assist specially-abled children. Immediate joiner dedicated to building scalable and reliable automated tools.

Technical Skills

- Python, Java (basics)
- MS Excel
- SQL
- HTML, CSS, JavaScript – Web Development
- OOPS Concepts

Education

Vignan's Foundation for Science, Technology & Research, Guntur	2024-2026
Master of Computer Applications (CGPA - 7.3)	2020-2023
Annabattuni Satyanarayana Degree College	
Bachelor of Computer Applications (CGPA-7.96)	2018-2020
Intermediate Nri Junior College (7.73)	
SSC Vijayavani School (9.3)	2017-2018

Projects

Supportive Hub for Specially-Abled Child

AI and Deep Learning (*HTML, CSS, JavaScript*)

- Developed an integrated accessibility platform for children with visual, auditory, and vocal impairments using TensorFlow.js and Web Speech API.
- Engineered a real-time object detection module (Vision Mode) that translates environmental context into spatial audio alerts for visually impaired users.
- Implemented a localized multi-language captioning system (Deaf Mode) supporting English, Hindi, and Telugu with zero-latency browser-based processing.
- Designed an AAC (Augmentative and Alternative Communication) talk board to provide vocal agency for non-verbal students.
- JavaScript, TensorFlow.js (COCO-SSD), HTML5/CSS3, Web Speech Synthesis/Recognition.

Certifications

- SQL (Advanced) – HackerRank, June 2026
- MS Excel – June 2026
